JOINT PRESS RELEASE
12 September 2007

**"Three Day Training Workshop in Good Practices in Refrigeration and Use
of Recovery and Recycling Machines"**
11-13 September 2007, Kabul, Afghanistan

The Afghanistan Ozone Programme assisted by the United Nations Environment Programme organized a three day training workshop in "Good Practices in Refrigeration and Use of Recovery and Recycling Machines" in the recently established refrigerant technician training center within the Afghan Korea Vocational Training Center based on a cooperation agreement between the Afghanistan Ozone Programme – National Environmental Protection Agency and the Ministry of Work, Social Affairs, Martyred and Disabled which was signed on 22nd February 2007.

The Training Workshop focuses on techniques that ensure sound environmental practices during the refrigerant servicing and on how to use the recovery and recycling machines which will be donated to refrigeration workshops by the Afghanistan Ozone Authorities funded by the United Nations Environment Programme, Multilateral Fund Secretariat for the implementation of the Montreal Protocol and the GTZ/ Government of Germany.

(ODSs) and are controlled under the Montreal Protocol.

Eighteen refrigerant technicians from Kabul city are attending the three day workshop, representing 16 service workshops from Kabul city. With the completion of the workshop eligible workshop owners will be provided with one set of equipment that will support the technicians to ensure environmental sound practices and to reduce the market demand for the CFC gases which are Ozone Layer Depleting Substances
